

LAFRANCE update

787 152 catholic marriages registered in Quebec for 1621-1911 period. All the 1621-1824 records have a link to the original document and a good part of 1825-1911. All these will be linked in the next months; the documents are actually available in the "Fonds Drouin records" section.

Been added : 1 145 620 baptisms and deaths from 1621-1824 and more than 317 431 baptisms and deaths from 1845-1849, all linked to image. All the baptisms and deaths of 1825-1849 will be added by the end of the year. With this happy relationship between genealogy and university research, there are now 2 224 851 records that are available in the LAFRANCE database.

Later during this projet, family crossings and links with other tools will also upgrade this unique database. The site now contains more than 36 million images and files, 36 005 878 to be more precise.

Genealogically yours, Sébastien Robert, v.-p. Drouin Institute
