The 1884 Census of St Joseph Church Burlington, Vermont

This census was most likely created by Father Jerome Marie Cloarec who was the Pastor of St Joseph's from 1871 until his death in 1920. In his yearly summaries, Father Cloarec stated that there were about 600 families at this time; however there are only 312 families in this census. This is after the 1868 timeframe when many parishioners formed a new French Church in Winooski which they named St Francis Xavier.

In 1883 Father Cloarec blessed the cornerstone for the new church on Allen Street, which was completed in 1887. This census represents the parish at this particular juncture in time when they were beginning this important change; attending Mass and other services at the old church on Prospect Street (Gogh Street), while building a new church in a more central part of Burlington.

Legend: Explanation of the special characters after many names.

@	"C" with a "/" drawn through it.	
C	This was a "C" with no "/" through it	
Blank	Nothing after the Given name	

This census was copied from a book stored in the Diocesan Archives in Burlington. The information was copied and entered into a computer during the month of April 2007 By John R. Fisher. I hope that it will be of some value to my fellow researchers.

There is also an 1887 census; however it lists only 136 families, most of which are the same as listed in this 1884 census.
